## LED Blinking

Aim : Turn on the LED on for a second, then off for a second, repeatedly

Hardware Required :-

- Arduino Board
- LEDs

CODE :

```
void setup()
```

```
{
```

```
  pinMode(13, OUTPUT);
```

```
}
```

```
void loop()
```

```
{
```

```
  digitalWrite(13, HIGH);
```

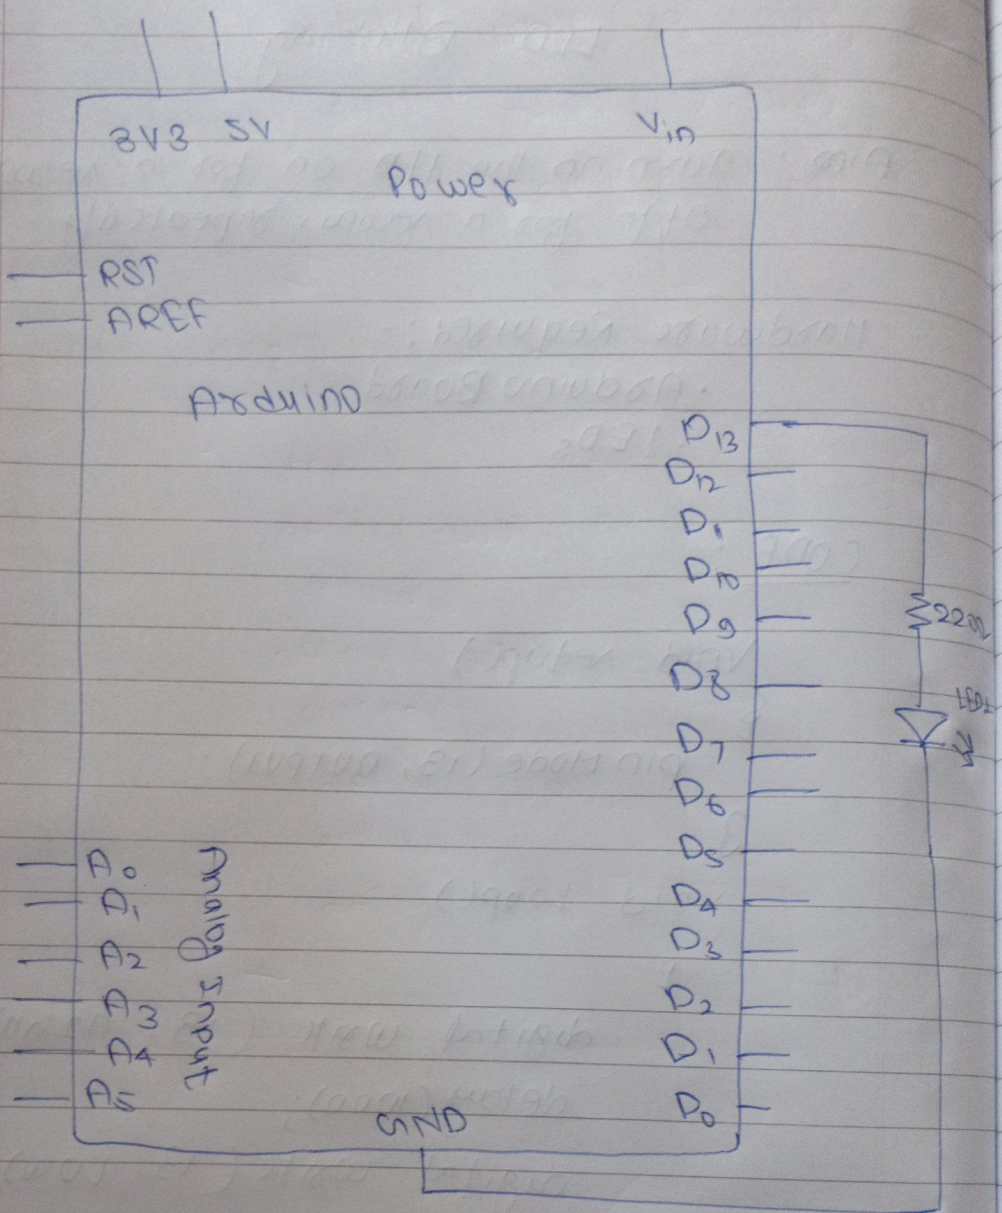

```
  delay(1000);
```

```
  digitalWrite(13, LOW);
```

```
  delay(1000);
```

```
}
```
